Important Legal Disclosure Of Typical Results, Testimonials, And Risks

GENERALLY EXPECTED RESULTS FROM ANY OF THE DRS. WOLFSON PRODUCTS:

Although our products are intended to be fully implemented, and we work hard to ensure it's easy to do so, the typical user of virtually all education products treats them in much the same way they treat a book. The vast majority read or skim through it once, then do not implement the program or take any action based on it. The results of such education are intangible, and not measured in fat loss, muscle gain, abdominal definition, or other positive results of any kind.

TESTIMONIALS DISCLAIMER: Testimonials found at TheDrsWolfson.com are unverified results that have been forwarded to us by users, and may not reflect the typical purchaser's experience, may not apply to the average person and are not intended to represent or guarantee that anyone will achieve the same or similar results. If we have disclosed typical results based on information provided to us by a manufacturer or other reputable third party source, you should presume that the typical results as stated are more reliable than the testimonials and other examples found at TheDrsWolfson.com. However, you should always

perform due diligence and not take such results at face value. We are not responsible for any errors or omissions in typical results information supplied to us by manufacturers or other reputable third parties. If a product or service is new, you understand that it may not have been available for purchase long enough to provide an accurate results history. Again, it is possible that even with perfect use of the program, you will not achieve the results described in testimonials. They are meant to be a showcase of the best results the program has produced, and should not be taken as the results a typical user will get.
